Carolyn J. Reynolds

REPORT OF THE BOARD OF SELECTMEN

The growth of New London for the tax year 1990 was 1.52% as measured by the increase in valuation. The valuation of the town increased \$6,642,789.00 to \$443,859,765.00. The equalized valuation went from 89% to 88%, which means that real estate sales on an average are selling at a price above their 1988 appraised value. This trend again in 1990 is being led by lakefront properties.

In the year 1990, the Selectmen issued 134 building permits: of which 112 were for additions, garages, renovations, decks etc., 12 were for new single-family dwellings, and 4 renewals. The remaining number was composed of 1 College recreational facility, 1 demolition, 1 flagpole, 1 scoreboard, 1 footbridge, and 1 conversion. In the tax year March 31, 1990, 10 new buildings were added to the tax rolls.

The Town's portion of the 1990 tax rate was \$3.81 — down \$.68 or 15.14% from the 1989 rate. This turned out to be a real help to the taxpayers in a year when the County's portion went up \$.25 or 18.12% and the School's portion went up \$.43 or 7.17%. The offsetting decrease allowed the total tax to remain the same as the previous year. This decrease in the Town's portion was predicted from the previous year. The Town's portion in 1989 had increased \$1.02 or 29.39%, and if you remember, the Selectmen made two settlements which they believed saved the Town a large sum of money in the long run, but drove the rate up in one year — 1989. You also remember the Selectmen stating that they would try to hold the Town's portion of the tax rate to 5%. The 1988 Town's portion was \$3.47, and two 5% increases would bring the rate to \$3.83 and we are at \$3.81. It would appear that we are on target and intend to be at 5% or below this year.

In tough economic times, you the taxpayers are to be commended for 82% of you paid your taxes to the Town by their due date. This allows us to operate on our own funds without using borrowed money which in this year would have been very expensive.

One of the cases we were able to settle out of court in the later part of 1989 was the Kezar Lake suit. As part of the settlement we have agreed on behalf of the Town to fund a maximum of two treatments of the lake over a period not to exceed 15 years. The settlement also spelled out an elaborate system which would trigger these treatments. These treatments are estimated to cost approximately \$120,000.00 each, in 1989 dollars. The request for the first of these treatments appears on the warrant this year. Under the terms of the agreement it may not be possible to wait for a Town Meeting to fund a treatment. It is also hoped that the interest earned on these funds might offset the inflation of the costs. This amount is pledged from surplus which will be offset in the most part by the two items that follow.

As you now know the hope of some kind of an easement to protect the view from Little Sunapee Road over the Messer property has not and will not materialize. We need to thank all the people who spent many hours working on this project.

During the year 1990 many hours have been spent in analyzing the Town's cash flow and as a result we have been able to better invest short-term excess funds and increase our Interest Income by 34%.

The Town and the State of New Hampshire have now set up a timetable for the closure of the landfill on Mountain Road. The plan calls for the completion of all the details by fall 1991. Bid specifications to go out in late 1991, to be returned so that the process will be ready for a vote at the regular 1992 Town Meeting. The work will be started in June 1992 and completed by November 1992. It is our hope that no additional snags will be encountered and that we can complete the project being a good neighbor to our friends in Wilmot. Based on the information we have at this point in time, the level of funding will not increase.

Last year we voted to put an addition on our library, and as you have seen, it happened. The addition is in keeping with the existing building and actually enhances the structure. We have been told that the contractor is on schedule and that the building should be completed on time. A vote of thanks must be given to the building committee and the many volunteers that helped in the moving.

The Transfer Station has met all our goals and continues to outdo its own records. With the tipping fees increasing, it becomes more important that we increase our recycling efforts. At this point in time, we are recycling 25.02% of our solid waste. We must, together, find ways to increase this percentage. Without your help we could not have done it — Thank You!

We have started the work in the Town Hall. However, we have had a small setback. During a wind storm last November the front doors of the Town Hall blew off. We received the "word" NOT to change the style or size of the doors. The same size wood doors have been ordered. The windows have been recaulked and rehung so they are now tight and work. The registers have been removed and the open space filled in with oak flooring. We can now start the replastering, where needed, and the painting. We hope that by Town Meeting you will be able to see a difference.

The Selectmen of the seven Towns in the Kearsarge Regional School District now meet on a regular basis and this is improving intertown relationships. We have learned that much can be gained by sharing problems with each other. Also a better relationship with the Kearsarge Regional School District has been achieved.

The Selectmen thank each of you who generously gave of your time and expertise to the town this past year. Working together, we can make New London an even better place to live.

Respectfully submitted,

JAMES W. MORELAND

Chairman

R. PETER BIANCHI

HAROLD W. BUKER, JR.

NOTICE TO PROPERTY OWNERS

Effective with the year 1987 the owners of real property will **not** be required to file an Inventory of Taxable Property per a vote of the Board of selectmen to adopt the provisions of RSA 74:4a.

NOTICE TO CURRENT USE APPLICANTS

New applicants for Current Use must fully complete a current use application form with a map showing clearly the land to be considered for Current Use. All applications and maps must be on file with the Board of Selectmen by April 15, 1991.

TOWN HISTORY - MIRROR TO AMERICA

The office of the Town Clerk has available for sale, during regular business hours, copies of **Mirror to America, A History of New London, New Hampshire, 1900 - 1950**, at a cost of \$10.00 per copy.

TOWN MEETING — MARCH 13, 1990

BALLOTING — WHIPPLE MEMORIAL HALL

The meeting was called to order by Moderator Hilary P. Cleveland at 10:00 a.m. to act upon Article 1, Parts A and B and the polls were declared open.

At 12:00 noon James Moreland made a motion to recess the Meeting, to reconvene at 7:00 p.m. Wednesday evening at the Kearsarge Regional Middle School to act on Articles 2 through 38; however, the polls would remain open until 7:00 p.m. The motion was seconded, and motion was voted in the affirmative.

Counting of the ballots began at 8:00 p.m. and the results of the balloting were read by the Moderator at 11:00 p.m.

Attest:

Lois E. Marshall, Clerk

Results of Non-Partisan Balloting for Town Officers. Total registered voters — 2,497; 639 regular ballots cast, 60 absentee ballots cast for a total of 699 votes cast.

Ballot Results on Amendments to the New London Zoning Ordinance.		
Are you in favor of the adoption of Amendment No. 1 as proposed by the Planning Board for the New London Zoning Ordinance?		
PROPOSED AMENDMENT NO. 1:		
AMEND ARTICLE II - 10. SIGN REGULATION, PARAGRAPH b. TO READ:		
Signs shall be permitted no larger than four (4) square feet in the Residential		

Districts, the Conservation District, the Agricultural and Rural Residential District, and for residential uses in the Institutional Districts; and fifteen (15) square feet in the Commercial District and the Institutional Districts except as noted above. No signs shall be placed in such a position as to endanger traffic on a street by obscuring a clear view or by confusion with official street signs or signals. Every sign permitted hereunder shall be constructed of durable materials and shall be maintained in good condition and repair at all times.

AS ARTICLE II - 10. SIGN REGULATION, PARAGRAPH b. IS PRESENTLY WRITTEN:

Signs shall be permitted no larger than four (4) square feet in the Residential Districts, the Conservation District, and the Agricultural and Rural Residential District; and fifteen (15) square feet in the Commercial District and the Institutional Districts. No signs shall be placed in such a position as to endanger traffic on a street by obscuring a clear view or by confusion with official signs or signals. Every sign permitted hereunder shall be constructed of durable materials and shall be maintained in good condition and repair at all times.

YES — 604 NO — 52

RATIONALE: The Planning Board's Amendment No. 1 will restrict signs for residential uses in the Institutional Districts to four (4) square feet in lieu of the fifteen square-foot size currently permitted.

Are you in favor of the adoption of Amendment No. 2 as proposed by the Planning Board for the New London Zoning Ordinance?

PROPOSED AMENDMENT NO. 2:

AMEND ARTICLE III — DEFINITIONS BY ADDING A DEFINITION OF ABUTTER TO READ:

Abutter means any person whose property adjoins, is directly across the street or stream, or is within two hundred feet (200') of the land under consideration by the Planning Board or Zoning Board of Adjustment including any person whose property meets these criteria and is located in a neighboring municipality. For the purposes of receiving testimony only, and not for the purpose of notification, the term abutter shall include any person who is able to demonstrate that his land will be directly affected by the proposal under consideration. For purposes of receipt of notification by a municipality of a local land use board hearing, in the case of an abutting property being under a condominium or other collective form of ownership, the term abutter means the officers of the collective or association, as defined in RSA 356-B:3, XXIII.

YES — 605 NO — 34

RATIONALE: The Planning Board's Amendment No. 2 will add a definition of abutter for both the Planning Board and Zoning Board of Adjustment to use for notification of public hearings.

Are you in favor of the adoption of Amendment No. 3 as proposed by the Planning Board for the New London Zoning Ordinance?

PROPOSED AMENDMENT NO. 3:

AMEND ARTICLE III — DEFINITIONS BY AMENDING THE DEFINITION OF RIGHT-OF-WAY TO READ:

Right-of-way means and includes all town, state and federal highways and rights-of-way public or private and the land on either side of same as covered by the Statutes to determine the widths of the right-of-way. (See Land Subdivision Control Regulations, Section VI-M:5.)

AS ARTICLE III — DEFINITIONS, RIGHT-OF-WAY IS PRESENTLY WRITTEN:

Right-of-way means and includes all town, state and federal highways, and public body of water, rights-of-way public or private and the land on either side of same as covered by the Statutes to determine the widths of the right-of-way. (See Land Subdivision Control Regulations, Section VI-M:5.)

YES — 579 NO — 61

RATIONALE: The Planning Board's Amendment No. 3 will remove public body of water from the definition of right-of-way and limit rights-of-way to roads and rights-of-way either public or private. This will preclude new lots from having frontage only on a public body of water with no road frontage.

Are you in favor of the adoption of Amendment No. 4 as proposed by the Planning Board for the New London Zoning Ordinance?

PROPOSED AMENDMENT NO. 4

AMEND ARTICLE VII — COMMERCIAL DISTRICT, SECTION B. LAND REQUIREMENTS, PARAGRAPH 1. TO READ:

1. There shall be between the nearest right-of-way and the extreme front of any building a yard having a minimum depth of thirty (30) feet; but said minimum depth may be less than thirty (30) feet if in conformity with the yards of adjoining lots. No building shall be located within ten (10) feet of the side or rear property line. The frontage shall not be less than the width of the land required for the structure thereof.

AS ARTICLE VII — COMMERCIAL DISTRICT, SECTION B. LAND REQUIREMENTS, PARAGRAPH 1. IS PRESENTLY WRITTEN:

1. There shall be between the nearest right-of-way and the extreme front of any building a yard having a minimum depth of thirty (30) feet; but said minimum depth may be less than thirty (30) feet if in conformity with the yards of adjoining lots. No building shall be located within ten (10) feet of the side or rear property line. The frontage on designated commercial streets shall not be less than the width of the land required for the structure thereof.

YES — 595 NO — 40

RATIONALE: The Planning Board's Amendment No. 4 will delete the reference to frontage on designated commercial streets since those designations were removed from the Zoning Ordinance several years ago.

Are you in favor of the adoption of Amendment No. 5 as proposed by the Planning Board for the New London Zoning Ordinance?

PROPOSED AMENDMENT NO. 5:

AMEND ARTICLE XXI — STEEP SLOPE OVERLAY DISTRICT, SECTION B. OVERLAY DISTRICT BOUNDARIES TO READ:

B. OVERLAY DISTRICT BOUNDARIES: The boundaries of the Steep Slope Overlay District include all areas of New London with slopes in excess of 25 percent with an elevation change of more than twenty (20) feet. The slope of the natural terrain shall be determinative of whether or not land is within the overlay district. As a general guide, areas of steep slope in excess of 25 percent are portrayed on the December 1986 STEEP SLOPES MAP prepared by the Upper Valley-Lake Sunapee Council.

AS ARTICLE XXI — STEEP SLOPE OVERLAY DISTRICT, SECTION B. OVERLAY DISTRICT IS PRESENTLY WRITTEN:

B. OVERLAY DISTRICT BOUNDARIES: The boundaries of the Steep Slope Overlay District include all areas of New London with slopes in excess of 25 percent. The slope of the natural terrain shall be determinative of whether or not land is within the overlay district. As a general guide, areas of steep slope in excess of 25 percent are portrayed on the December 1986 STEEP SLOPES MAP prepared by the Upper Valley-Lake Sunapee Council.

YES — 563

NO — 57

RATIONALE: The Planning Board's Amendment No. 5 will amend the boundaries of the Steep Slope Overlay District to include those areas with slopes in excess of 25 percent which have an elevation change of at least 20 feet. Requiring a minimum elevation change of 20 feet will make the boundaries of this overlay district more reasonable by eliminating relatively minor changes in the topography from the provisions of this district.

Are you in favor of the adoption of Amendment No. 6 as proposed by the Planning Board for the New London Zoning Ordinance?

PROPOSED AMENDMENT NO. 6:

AMEND ARTICLE XIV — ENFORCEMENT, SECTION A., PARAGRAPH 6 TO READ:

6. Upon conviction thereof, every person, firm or corporation violating any of the provisions of this ordinance shall be fined not more than one hundred dollars (\$100) for each day such violation existed after official notification by the Selectmen or their agent.

AS ARTICLE XIV — ENFORCEMENT, SECTION A., PARAGRAPH 6 IS PRESENTLY WRITTEN:

6. Upon conviction thereof, every person, firm or corporation violating any of the provisions of this ordinance shall be fined not more than ten (\$10) dollars for each day such violation may exist.

YES — 541 NO — 92

RATIONALE: The Planning Board’s Amendment No. 6 will change the fine for violating the Zoning Ordinance from \$10 to \$100 for each day the violation exists to be consistent with the amount permitted by state statute.

Are you in favor of Amendment No. 7 as proposed by the Planning Board for the New London Zoning Ordinance?

PROPOSED AMENDMENT NO. 7:

AMEND ARTICLE VIII — CONSERVATION DISTRICT, INTRODUCTORY STATEMENT TO READ:

The purpose of this district is to provide for the conservation of significant amounts of open space for visual and recreational enjoyment. These are areas in the community not served by adequate facilities and utilities, of subsoil conditions that cause problems in development of the land and should be conserved because of their scenic values, wildlife habitat, type of vegetation and/or unique geographical features. Conservation of these areas will assist in keeping New London an attractive, rural community and allow for adequate open space.

AS ARTICLE VIII — CONSERVATION DISTRICT, INTRODUCTORY STATEMENT IS PRESENTLY WRITTEN:

This district allows for open space and conservation. These are areas in the community unserved by adequate facilities and utilities, of subsoil conditions that cause problems in development of the community and should be conserved because of their scenic values in order to obtain the community’s goal of keeping New London an attractive community allowing adequate open space. A maximum density permitted is one family in ten (10) acres.

YES — 572 NO — 48

RATIONALE: The Planning Board’s Amendment No. 7 will revise the introductory statement for the Conservation District to more accurately reflect the goals of this district. Additionally, the density standard is proposed to be removed from this introductory statement and inserted in the Land Requirements section as proposed in Amendment No. 8 to follow.

Are you in favor of Amendment No. 8 as proposed by the Planning Board for the New London Zoning Ordinance?

PROPOSED AMENDMENT NO. 8:

AMEND ARTICLE VIII — CONSERVATION DISTRICT, SECTION C. LAKESHORE FRONTAGE TO READ:

C. Land Requirements

1. Within the Conservation District, the minimum lot size shall be ten (10) acres.
2. Any building lot within the Conservation District shall have a minimum of two hundred (200) feet of continuous road frontage.
3. A lot having lakeshore frontage on a public body of water shall have frontage on the lake of not less than three hundred (300) feet.
4. The maximum population density shall be one (1) family per ten (10) acres.

AS ARTICLE VIII — CONSERVATION DISTRICT, SECTION C. LAKESHORE FRONTAGE IS PRESENTLY WRITTEN:

C. Lakeshore Frontage

A lot having lakeshore frontage on a public body of water shall have frontage on the lake of not less than three hundred (300) feet.

YES — 497 NO — 127

RATIONALE: The Planning Board’s Amendment No. 8 will amend the Conservation District requirements by adding a minimum lot size of ten acres and by adding a minimum road frontage requirement of two hundred feet. Additionally, the density standard of one family per ten acres currently in the introduction statement for the district will be inserted in this section.

CONTINUATION OF TOWN MEETING — MARCH 14, 1990
KEARSARGE MIDDLE SCHOOL AT 7:00 P.M.

Moderator Hilary P. Cleveland at 7:05 p.m. recognized Richard Biddle who represented the NH/VT Solid Waste Project. New London received the first annual award recognizing it in 1989 as the municipal with Outstanding Recycling at a Transfer Station. Also recognized was Fred Welch as an innovator, a marketer, a motivator, and an accurate record keeper, as well as the Transfer Station staff of Robert Lee, Catherine Peirce, and Karen Welch.

The Moderator formally reconvened the meeting at 7:15 p.m. and read the results of the balloting which took place on March 13, 1990.

Moderator Cleveland recognized Harold Buker who made a motion to have the Meeting take Article 5 out of order as the next item of business.

ARTICLE 5: It was moved and seconded, “To see if the Town will vote to suspend the reading of the individual Articles of the Warrant and to refer to them by number.”

VOTE IN THE AFFIRMATIVE

ARTICLE 2: It was moved and seconded, “To see if the Town will vote to raise and appropriate the sum of \$1,285,300 for the purpose of preparing plans and specifications and constructing an addition to the Tracy Memorial Library, such sum to include the purchase of original equipment, that the sum of \$916,405 be raised by the issuance of serial bonds or notes not to exceed \$916,405 for a period not to exceed 15 years under and in compliance with the provisions of the

Municipal Finance Act (New Hampshire RSA 33:1 etc., as amended); and to authorize the Selectmen to issue and negotiate such bonds or notes and to determine the rate of interest thereon; and further to authorize the Board of Selectmen and the Board of Library Trustees to apply for, contract for, accept, and expend any Federal, State or other available funds towards the project, according to the terms under which they were received, and to borrow in anticipation of the receipt of such aid or issuance of such bonds or notes, by the issuance of bonds or notes in anticipation of such bonds, notes or aid as provided by the Municipal Finance Act, as amended; provided that any interest received or available may likewise be applied to the project to the maximum extent permitted by law; the balance of \$368,895 to be made available from donations for renovations, additions, and improvements to the Tracy Memorial Library currently being held by the Board of Library Trustees; and to authorize the Board of Selectmen and the Board of Library Trustees to take all other actions necessary to carry out the project in the best interests of the Town of New London.”

(2/3rds vote by Ballot)

RESULTS OF THE VOTE ON ARTICLE 2
— 487 BALLOTS CAST (2/3rds=325 votes)
YES — 405 NO — 82

ARTICLE 3: It was moved and seconded, “To see if the Town will vote to raise and appropriate the sum of \$1,005,500, and to authorize the Board of Sewer Commissioners to expend said sum for the purpose of constructing sanitary sewer lines in the Birch and Seamen Acres areas of New London, said sum to include the purchase of land and easements, and to authorize the issuance of serial bonds or notes to fund said appropriation in a sum not to exceed \$1,005,500 for a period not to exceed 15 years under and in compliance with the provisions of the Municipal Finance Act (New Hampshire RSA 33:1 etc, as amended); and to authorize the Board of Selectmen to issue and negotiate such bonds or notes and to determine the rate of interest thereon; and further to authorize the Board of Selectmen to apply for, accept, and expend any Federal, State or other available funds towards the project, according to the terms under which they are received and to borrow in anticipation of the receipt of such aid or the issuance of such bonds or notes, by the issuance of bonds or notes in anticipation of such bonds, notes or aid as provided by the Municipal Finance Act, as amended; provided that any interest received or available may likewise be applied to the project to the maximum extent permitted by law; and further notwithstanding that the bonds or notes shall be a general obligation of the Town, the Board of Sewer Commissioners are hereby directed to establish assessments sufficient to pay 90% of all costs due to the construction of such sanitary sewer lines against those served or receiving a benefit from the lines to be constructed hereunder; and to authorize the Board of Selectmen and Board of Sewer Commissioners to take all other actions as may be necessary to carry out the project in the best interest of the Town of New London.”

(2/3rds vote by Ballot)

Moderator Hilary Cleveland recognized Lloyd Littlefield who made a motion to amend Article 3 by changing the Town’s share to read \$607,226 rather than \$100,550. Motion was seconded.

VOTE IN THE NEGATIVE ON THE AMENDMENT

LOIS E. MARSHALL
Town Clerk

THE STATE OF NEW HAMPSHIRE
NEW LONDON, N.H.
TOWN WARRANT

To the inhabitants of the Town of New London in the County of Merrimack, in said State, qualified to vote in Town affairs:

(L.S.)

You are hereby notified to meet at the Whipple Memorial Hall in said New London on Tuesday, the twelfth day of March next at 10:00 o'clock to act upon the following subjects:

- ARTICLE 1:** A. To choose all necessary Town Officers for the ensuing year.
 B. To vote by ballot on amendment to the New London Zoning Ordinance.

Note: By law, the meeting must open before the voting starts. Therefore, the meeting and polls will open at 10:00 o'clock for the consideration of Article 1, parts A and B.

At 12:00 noon the Meeting will recess, but the polls will remain open until 7:00 p.m. The meeting will reconvene at the Kearsarge Middle School Gymnasium on Wednesday, March 13, 1991, at 7:00 p.m., to act upon Articles 2 through 30.

ARTICLE 2: "To see if the Town will vote to suspend the reading of the individual Articles of the Warrant and to refer to them by number."

ARTICLE 29: "To see if the Town will vote to authorize the Board of Selectmen and the Town Treasurer to incur debts from time to time during the 1991 fiscal year to an aggregate amount not exceeding the 1990 tax levy, for temporary loans in anticipation of 1991 taxes, and to issue notes of the Town therefore, and to refund the same, all as provided in the Municipal Finance Act; the Selectmen and the Treasurer to be authorized to sell such notes."

ARTICLE 30: "To see if the Town will vote to authorize the Board of Selectmen to transfer tax liens and convey property acquired by the Town of New London by Tax Collector's Deed, by public auction, or advertised sealed bid or in such manner as determined by the Board of Selectmen as justice may require, in accordance with RSA 80:42."

Given under our hands and seal this thirteenth day of February, in the Year of our Lord nineteen hundred and ninety-one.

JAMES W. MORELAND

TREASURER'S FAREWELL

After eighteen years as your Town Treasurer, I decided it was time to pass this year's election. The position has increased in the volume of transactions along with the increase in population. I should like to mention some highlights which have greatly improved your Town's efficiency and the performance of your Town officials.

In 1985, New London hired Fred Welch to serve as Administrative Assistant to the Board of Selectmen. This event coincided with the construction of the addition to the Town Hall, which Fred oversaw to its conclusion in 1986. For the first time the New London Town Offices were consolidated in one place. Today our Tax Collector, Lois Marshall, and the Deputy Collector, Grace Granger as well as Jill Lynch and April Whittaker, who handle the Town accounting and secretarial duties on behalf of the Selectmen, together with Fred Welch, see to the efficient administration of New London's business. Fred Welch also oversaw the construction and operation of our very successful Recycling Center.

The Selectmen are very busy people in their own fields, and do not have the time for the endless demands of running our town, which is the reason for having Fred Welch on board to assist the Selectmen. New London is indeed fortunate to have such a loyal and hard working staff.

I have enjoyed being your Treasurer. It is time to pass the reins on to another.

To quote philosopher John Heywood, who said in the year 1546 "A hard beginning maketh a good ending".

Respectfully Submitted,

February 12, 1991

Benjamin L. Bucklin

INDEPENDENT AUDITOR'S REPORT

To the Members of the Board of Selectmen
Town of New London
New London, New Hampshire

We have audited the accompanying general purpose fund financial statements of the Town of New London as of and for the year ended December 31, 1989, as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosure in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Asset Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of New London at December 31, 1989, and the results of its operations and the changes in financial position of its nonexpendable trust funds for the year then ended, in conformity with generally accepted accounting principles. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the Town of New London at December 31, 1989, and the results of operations of such funds for the year then ended, in conformity with generally accepted accounting principles.

REPORT OF
THE NEW LONDON DISPATCH CENTER

Over the years New London and the surrounding towns we dispatch for have experienced significant changes. The dispatch center has been able to make some improvements to help adjust to these changes. Last years updating of the phone system, and the new radio this year are two very important components for the efficient operation of the dispatch center. The dispatch center is a vital link between the public and their emergency services (Fire, Police, Ambulance), and without the continued support of the citizens of New London we would not be able to make the necessary improvements that enable us to perform our duties effectively. This support is indeed greatly appreciated.

Listed below are the comparison figures for 1989 and 1990 of the dispatch activities.

	1989	1990
Telephone Calls Received	32,456	36,393
Burning Permits Issued	232	235
Ambulance Calls	389	414
Fire Calls	80	75
Aids To The Public	402	490
Assist Other Departments	489	523
Animals Lost or Stray	125	105

Respectfully submitted,

Stuart F. Sidmore, Jr.
Chief Of Police

and

Deborah K. Wheeler
Admin. Coordinator

Report for New London Area Chamber of Commerce---1990

The major change for the New London Area Chamber of Commerce during 1990 was the addition of the word "area" to its name. This change more accurately reflects the membership base and the fact that New London has become the service center for the region.

The NLACC undertook many projects during the year to help stimulate the business climate in the area and to provide services to the membership. The Newsletter was greatly expanded to include listings of business seminars, articles on good business practices and other information beyond the routine business of NLACC. A successful Business After Hours program was instituted, allowing members to interact with one another in informal settings. Luncheon meetings with interesting speakers and a member recognition breakfast were also held. On occasion NLACC has interceded with local officials on behalf of the business community needed a voice in local matters.

Most recently the Chamber acted as coordinator for the Christmas in Our Town 1990 celebration, which included the decorating of the Town tree on the Haddad Bandstand, the Service of Lessons and Carols at the First Baptist Church, the decorating of the Old Colby Academy Building by the Garden Club and the dedication of the Tomie dePaola designed holiday installation at the Information Booth. It is planned to make this an annual event and Tomie dePaola has agreed to design an additional piece each season.

Not to be overlooked, NLACC again managed the Information Booth on Main Street for the town. This past summer saw 3,571 visitors to the booth seeking information on area businesses and events. Visitors to the booth came from as close as "down the street" to "half-way around the world," including Hong Kong, New Zealand, and Hungary. In addition the NLACC maintained a year 'round phone number to assist travellers and residents alike. One thousand thirty-seven additional requests for information were received by mail and telephone in 1990, all of which received a response. Were it not for the caring and dedication of Don and Nancy Bent, Information Directors, NLACC could not provide this service.

NLACC also again published its annual promotional/information piece New London: A Town for All Seasons. Over 25,000 were distributed through interstate rest areas, local businesses, the Information Booth and in response to mail requests. Plans are underway to further improve this publication for 1991.

The Board of Directors wishes to thank all who assisted in the many projects during 1990 and looks forward to a busy and fruitful year.

Respectfully Submitted
s/Steve Mendelson
Secretary/Clerk

The Ausbon Sargent Land Preservation Trust (ASLPT)

1990 was an exciting year for ASLPT with widespread community support! About 125 people from New London and 10 surrounding towns, staged the Town Hall Production, "Spring Shenanigans," which resulted in great area recognition of ASLPT's land protection mission.

During 1990 the Edward Parkhurst/Loren Sjostrom (42.44 acres) and the Dorothy Adams/Edith Nordstrom (7 acres) properties were permanently protected by means of a conservation easement. With this land protection method, the landowners retain ownership of their properties but permanent restrictions are placed on the land use. To date, ASLPT has protected 170 acres. Properties previously protected with an easement are owned by the following landowners: Rachel & Murray Sargent, Eunice B. Bohanon, Stanley Farm Association, Lincoln Gordon, Sarah and David Yerkes.

ASLPT continues to work closely with the Town of New London and its Conservation Commission. On November 1, ASLPT, in conjunction with the town, submitted an application to the state-funded Land Conservation Investment Program (LCIP) requesting funds to purchase the development rights (conservation easement) on 52 acres of Spring Ledge Farm, Main Street. The LCIP will notify applicants of their acceptance during early 1991. Contingent upon LCIP approval, Jim Cleveland and Bill Kidder, Sr., have agreed to donate a conservation easement on a portion of their property which abuts Spring Ledge Farm. The combined properties would provide attractive public trail access for walking and cross-country skiing.

ASLPT is enormously grateful to all the people who have given generously and especially to those landowners who have donated conservation easements. It is important that the townspeople continue to support ASLPT, so that our trust can proceed with its efforts to preserve the rural character of New London. By protecting the landscape, we enhance the quality of life for now and future generations.

Charles V. Sebring
ASLPT Chairman

Report of the Town of New London Health Officer

During 1990 your health officer continued on a part-time basis to carry out those duties directed at the protection of the health and environment of our community. These duties consist primarily of the "environmental health" aspects of public health including: inspection of child care facilities; investigation of septic system failures; environmental problems, nuisances and a variety of complaints; advising residents on drinking water and septic system problems; observation and recording of test pit soil structure for plans to insure proper records of test pit data, upon which plans are based, and to insure compliance with New London regulations.

During 1990, 81 plans were approved for construction of septic systems. This compares with 68 plans approved in 1989. In addition, in 1990, 46 sites were visited to consult and record 81 test pits on the following: one proposed subdivision; 15 lots for proposed new construction and 26 lots for replacement of septic systems of which 3 were in a state of failure. This compares with the 1986-1989 four year averages of 58 sites comprising an average of 8.5 for subdivisions, 38.5 for new construction and 13.67 for replacement systems. These statistics clearly demonstrate the continued slowing of new housing construction and the increasing need for replacement of older systems over the last four years.

The most significant local public health incident of 1990 was an outbreak of 25 to 30 cases of gastroenteritis associated with swimming during a particular time period at the Elkins Beach. The beach was closed for 36 hours for safety's sake while tests were made and the source of infection determined to be from one or more active cases who went swimming and spread viruses in the swimming area. Person with upper respiratory and gastrointestinal ailments should refrain from using public swimming areas at the risk of spreading such illnesses through the water to other swimmers.

The major public health risks to our community continue to be: 1. Smoking, primary and second hand smoke, with its proven cause of cancer and cardiovascular diseases;

2. Radon, and other radioactive elements, in water and air. Inhalation of radon and radioactive particles poses the same long term cancer risk as smoking. Gastrointestinal risks are also probable, but not yet well documented, from ingestion of elevated levels of uranium and its various radioactive decay products;

3. The long term increased risk of cancer from ingestion of trichloromethane (chloroform) present in our public water supply; 4. The constant risk of giardiasis from a public water supply treated only by chlorination.

The continued cooperation of New London's citizens in elimination of health hazards is appreciated. I am always open to the questions and reports of people interested in environmental and health related problems.

I also wish to express my appreciation to Donald C. Lamson, who, as Assistant Health Officer, performed my duties while I was away on vacation.

Respectfully Submitted
Donald F. Bent, Ph.D.
Health Officer

New London Conservation Commission

Each year seems the same, yet it is different. Our trail work program has the same goals--to keep paths open and attractive to hikers and nature lovers. We have lots of variety and the public has taken advantage of the facilities. We want this.

One major change has been made. Our maintenance of the Royal Arch Trail has ended and the Springfield Conservation Commission has accepted the responsibility to maintain this trail.

The Phillips Memorial Preserve on the hill between Goose Hole Pond and Otter Pond has increased in size due to the heirs of Haskell Reid giving us acreage adjacent to Interstate 89. This is a welcomed gift and increases the likelihood of adding more trails to the area.

The Lyon Brook Trail from Lakeside Road to County Road will be affected by the construction of Glengae, the NL Hospital's Retirement Center. We are working with the Hospital and its architects and engineers to assure the survival of the important flora and fauna in this plot.

The NLCC has also had many meetings regarding the tentative development of land at Low Plain. We consider this site an important one for wildlife. Its variety is amazing and all parties in the discussions recognize this. The NH Wetlands Board is a factor in negotiations and a decision should be forthcoming soon.

Last year, the status of the Messer property along Little Sunapee Road was in limbo. We had hoped that with the assistance of the NH Land Conservation Investment Program and the Ausbon Sargent Land Conservation Trust a satisfactory conclusion would be reached. Unfortunately, the efforts were unsuccessful.

Our non-working activities during the year included our annual Winter Walks in February and March, our Morning Walks in May and June, and an Earth Day acknowledgment with a tour of the Philbrick-Cricenti Bog.

The NLCC has many easements in town to monitor. It also acts as back-up grantee to the ASLPT on many easements they receive. The idea and action taken to preserve land and views in New London is outstanding. The opportunity to appreciate the concern residents have to keep New London, New London, is fantastic and the consideration to maintain this feeling is truly worthwhile. May it continue and spread.

Our monthly meetings at the Town Hall have been changed to the third Wednesday of each month at 9:15 am. We have occasional visitors and would welcome more as we do need the input of ideas from outside the Commission.

UPPER VALLEY-LAKE SUNAPEE COUNCIL

1990 Report to Member Communities

There are nine Regional Planning Commissions in New Hampshire and 12 in Vermont. Like the others, the Upper Valley-Lake Sunapee Council is a private, non-profit corporation enabled by state legislation.

Overall, our duties fall into two categories:

- Provide services to member Towns
- Address regional issues.

Services to Towns

Four types of basic services are available to member Towns:

— **Information:** We maintain a library of pertinent planning information, and have a capable staff with expertise in many areas of planning.

— **Advice:** Perhaps our most valuable service. We spend a lot of time on the telephone and in our office simply giving advice on planning issues, based on our cumulative experience and expertise.

— **Hands-On Help:** “Hands-on” services are one step beyond advice. Examples include: reviewing an ordinance, providing a linkage to a state or federal program, reviewing a proposed development project, explaining how a certain aspect of planning usually works and investigating what is appropriate in a given situation, exploring alternative solutions for a particular problem.

— **In-Depth Support:** We do transportation planning, master plans, ordinances, natural resource planning, capital improvement programs, impact fee studies, opinion surveys, impact studies for large projects, and other special studies of many sorts. A number of towns also take advantage of our circuit rider planning program. Usually, we must charge in addition to dues for support in depth, to meet our expenses and break even. This type of support is available only to member communities (we do not do any work for private companies or individuals), and at far less cost than comparable expertise from a private consulting firm.

Regional Issues

We also provide a forum for regional issues. Currently we are working regionally on community development, economic development, solid waste, hazardous waste, transportation, housing, and studies related to Lake Sunapee and the Connecticut River. We are almost always able to support these efforts with state funds and/or special grants. Some of the state funding does vary depending on how much local support we have via dues.

Services Available

As noted, one primary function of UVLSC is to provide planning services to member communities. Many of these services are directly related to the planning and zoning activities of the communities, but others are more specialized. It is useful to take a closer look at some of these specialized resources. They tend to vary over time, as different issues come to the fore. Our current services are listed below.

Community Development

UVLSC administers Community Development Block Grant programs for member communities in New Hampshire. We also prepare grant applications to obtain funding under this program. Monies are passed through by the State from Federal sources, and are currently used in three ways: for housing rehabilitation, water supply, and municipal building improvement programs. We have been highly successful in obtaining funding for this program, and have brought over \$3,000,000 worth of Community Development money into the region during the past four years.

Economic Development

We started the Sullivan County Economic Development Commission six years ago, and have helped support it ever since, with partial funding and by providing overall administrative services. This highly successful organization is now being “spun off,” to become a separate entity, and our funding commitment ends at the end of the year. This will allow us to turn our attention to other issues in Sullivan County, while the Economic Development Commission simultaneously continues its mission of bringing new business into the region. We are also beginning to turn our attention to economic development issues in the rest of the Region.

Transportation Planning

We are heavily involved in the 1988 Upper Valley Transportation Study, which provided detailed recommendations for transportation improvements in the core of the Upper Valley (Hanover, Hartford, Lebanon, and Norwich). This study developed a computer model of the transportation network in the core area, which we continue to maintain and upgrade. We also have done a number of studies of mass transit issues and options in the area. We continue to provide transportation planning services to a number of member communities.

Environmental Planning

UVLSC is involved in regional solid waste planning in both New Hampshire and Vermont. We continue to support and advise the Upper Valley Solid Waste District in New Hampshire, and the Greater Upper Valley Solid Waste Management District in Vermont. We are also involved in water quality planning in a number of ways. We have prepared Water Quality Management Plans for several New Hampshire towns. We continue to be involved with the New Hampshire Connecticut River Valley Resource Commission and the Vermont Connecticut River Advisory Council, devising long-term strategies for preserving appropriate land uses along the Connecticut River. We are also working on shoreline protection ordinances around Lake Sunapee.

Land Preservation

We continue to support and cooperate with land preservation efforts throughout the region.

GIS — Geographic Information Systems

We continue to work with this new technology. We are a GIS service center for member communities in both New Hampshire and Vermont, with three trained staff people, and we have provided advice regarding GIS to many member towns. Currently, UVLSC is working with a number of member towns to provide maps and analyses for Master Plans, utilities, and special land evaluation studies. The possibilities for utilizing GIS and integrating it with all aspects of planning are widespread, and as more data becomes available from the states, GIS becomes more cost effective for smaller communities. As GIS becomes an every-day reality throughout New Hampshire and Vermont during the next several years, UVLSC will be able to offer more GIS mapping and analyzing services to member towns.

* * * * *

- During 1990, UVLSC was involved in a wide variety of activities. These included:
- As in the past several years, provided consultation and help to over two-thirds of the local communities. (Which two-thirds this is varies — not all communities request help every year.)
 - Continued to work with the Geographical Information System (GIS). We completed a regional land use analysis and began work on region-wide data layers for base maps, including municipal boundaries, roads, water bodies, and rail lines. We were designated an official Service Center by the Vermont Office of GIS. We were also instrumental in getting our Vermont towns to the top of the list for state-funded base mapping of tax plat maps. We also began GIS project work for Hartford and Thetford.
 - Continued to promote a consistent land use classification system for both New Hampshire and Vermont to use in GIS mapping.
 - Developed a Land Use element for the Regional Plan. This included creating a series of four regional land use maps using the GIS.
 - Met repeatedly with state officials and agency representatives to influence policy and help keep the region an active participant in many ongoing programs.
 - Maintained a library of regional data, and answered numerous requests for information.
 - Provided extensive support to our Vermont towns for solid waste district formation, in cooperation with the Two Rivers Ottauquechee Regional Commission. We also worked toward fulfilling our other responsibilities under Act 78, Vermont's solid waste law.
 - Assisted the Upper Valley Solid Waste District (on the New Hampshire side), sponsored a number of meetings of the District, worked toward revising the District plan to accommodate comments from the State of New Hampshire, and worked toward implementation of regional solid waste solutions where appropriate.
 - Continued to make available the services of a recycling coordinator to New Hampshire towns. Among other things, we assisted in a number of successful grant applications for recycling projects.

- Continued to administer the Upper Valley Household Hazardous Waste Collection program. Helped move the program toward providing some form of year-round collection efforts, coupled with increased public education.
- Completed a number of Water Quality Management Plans for inclusion in town Master Plans under NH Chapter 167.
- Continued to provide support for an economic development agent in Sullivan County, to help retain and expand employment opportunities in the area. This highly successful organization became administratively independent in 1990, and will be financially fully independent as of January, 1991. We continue to have overlapping Board memberships with this organization.
- Participated in a second year of statewide dialog regarding Impact Fee legislation during the legislative session in New Hampshire.
- Sponsored local sessions of the NH Municipal Law Lecture series.
- Participated in the Governor's Council for the 21st Century.
- Administered a number of Community Development Block Grants. These grants have brought several million dollars worth of rehabilitation and municipal improvement funds into the region during the past few years. Only 2 of the 9 regional planning agencies in New Hampshire provide this service.
- Continued to work with the computer model developed during the Upper Valley Transportation Study to assess the traffic impacts of several large proposed development projects, and to assess the impacts of changes to the roadway network.
- Continued support for the Transportation Coordinating Committee, formed in 1989 at the request of the New Hampshire Department of Transportation.
- Provided technical assistance to Advance Transit and County Coach.
- Continued a study of public transportation for social service agencies in nearby towns in Vermont.
- Complied with applicable Act 200 requirements at the local, regional, and state level, including participation in the Council of Regional Commissions.
- Participated in review of Act 200, the new comprehensive planning legislation in Vermont, including legislative strategy sessions.
- Participated in the Vermont Act 250 environmental review process for a number of regionally significant projects.
- Sponsored local sessions of the VT planning training series.
- Worked with the communities around Lake Sunapee to develop a shoreline protection ordinance.
- Worked closely with the Upper Valley Land Trust, Society for the Protection of New Hampshire Forests, the Trust for New Hampshire Lands, and the Connecticut River Watershed Council to protect open space and conserve important parcels of land.
- Continued to participate in and work with the Connecticut River Valley Resource Commission. This commission allows New Hampshire towns in the Connecticut River Valley to join together in addressing issues such as growth, development, and preservation of the natural environment.

- Completely revised and updated our Regional Profile, and distributed copies to member towns.

The Upper Valley-Lake Sunapee Council also provides specific services to communities on a contract basis. As requested by the communities, the Council conducted impact studies regarding proposed development, worked on amendments/updates to local ordinances and regulations, drafted new ordinances, performed capital improvement programs, and provided general mapping, drafting, and other technical assistance.

The Upper Valley-Lake Sunapee Council looks forward to serving your community during the coming year. Please feel free to contact us for more information about specific activities in your community, or whenever we can be of assistance.

NEW LONDON PLANNING BOARD

During 1990 the New London Planning Board reviewed a variety of conceptual, preliminary, and final applications culminating in the following:

Eleven annexation proposals were approved resulting in the elimination of 389 previously approved lots in New London.

Five minor subdivisions were approved resulting in the creation of 8 new lots. Two previously approved minor subdivisions were amended resulting in the elimination of one lot.

Six site plan proposals were approved.

One major subdivision was approved resulting in the creation of 12 new lots. One previously approved major subdivision was amended.

One cluster development was approved.

One home occupation was approved.

Significant projects carried over to 1991 include one cluster/subdivision proposal, one site plan proposal, and one planned unit development.

Following reviews with the Selectmen and the Budget Committee, the Capital Improvements Program was updated and approved for the 1991 - 2000 period.

The New London Zoning Ordinance was reviewed, proposed amendments were presented at two public hearings, and recommended amendments were presented to town voters at the town meeting.

A review of the Site Plan Review Regulations was completed and proposed amendments were presented at two public hearings. These amendments were adopted by the Planning Board.

A review of the new London land subdivision Control Regulations was initiated and proposed amendments will be presented at public hearings in 1991.

Changes to these regulations are designed to clarify, correct and permit consistent application of these regulations while ensuring compliance with state and federal requirements. Additions to these regulations are designed to (1) promote orderly and planned growth, (2) foster development of an economically and environmentally sound and stable community, and (3) protect the interests of the public and the taxpayer from the consequences of improper and unmanaged growth.

The Planning Board thanks those residents of New London who have attended our public hearings and expressed their opinions and thoughts about proposed changes or additions to these New London regulations. We are appreciative of your involvement.

Respectfully submitted,

Charles A Mortensen
Chairman, Planning Board

REPORT OF THE NEW LONDON FIRE DEPARTMENT

The 1990 fire season opened with a flurry of activity, with 10 chimney fires in the first two months. Unfortunately, there was also a serious structure fire during this period of time, resulting in the death of a dog and a cat, but there was only minor structural damage to the building itself.

There was also a tractor trailer roll-over on the interstate in which the driver was trapped. Fortunately, with our new extrication equipment, we were able to remove the victim from the badly mangled cab in only a few minutes.

Since the spring, however, fire calls have dropped off considerably, leaving us a little below last year in the number of overall calls. I am particularly pleased with the decrease in both false alarms and illegal burning activity.

For many years the fire chiefs of New London have dreaded the thought of a major fire at the college. The size of the buildings coupled with the relatively poor delivery rate of the water system at that elevation would make for a tense firefighting situation, even in sprinklered buildings. With the installation of the new athletic facility however, we now have access to over 250,000 gallons of pool water through a dry hydrant and through several pressurised outlets fed by a 1,000 gallon per minute pump. In effect, we have what amounts to a stationary fire truck on campus. This would also serve as a backup firefighting water source for the Main St. area in the event of a water system failure.

The New London Fire Department continues to be at full membership, with high levels of enthusiasm, skill and ability. Most of our equipment, though showing signs of age, continues to serve us well. Our ladder truck, which is scheduled to be replaced next year, suffered an engine failure last spring. The engine was replaced with a used motor from a old wrecked City of Concord fire truck to get us by for the time being. Replacement of this truck is now our highest priority.

In closing, we again remind you to be careful using woodstoves, fireplaces, or any other alternative heat source and avoid the use of unvented space heaters. If you have questions regarding fire safety or

the fire department, please don't hesitate to contact me or any member of the department.

Respectfully submitted,

PETER S. STANLEY
Fire Chief

REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

During Calendar Year 1990, the State of New Hampshire experienced an average number of wildfires. The three leading causes of these wildfires were fires kindled without a fire permit from the Forest Fire Warden, permit fires that escaped control and rekindled fires. All these fires are preventable, but **ONLY** with your help.

Please help your town and state forest fire officials with forest fire prevention. By New Hampshire State Law (RSA 224:27 II), “No persons, firm or corporation shall kindle or cause to be kindled any fire or burn or cause to be burned any material, except when the ground is covered with snow, **without first obtaining a written fire permit from the Forest Fire Warden of the town where the burning is to be done.**”

Violations of RSA 224:27 II and the other burning laws of the State of New Hampshire are misdemeanors punishable by fines of up to \$1,000 and/or a year in jail and you are also liable for paying all fire suppression costs.

The State of New Hampshire, Division of Forests and Lands assisted many towns in wildland fire suppression during 1990 including a 262-acre fire in Moultonboro and several fires in Hooksett.

In 1990, the New Hampshire Division of Forests and Land trained 844 local Wardens and Deputy Wardens in the Incident Command System (ICS), an incident management system for all types of emergencies. In 1991, Wardens will be trained in the use of Class A foam in wildfire suppression.

If you have any questions regarding New Hampshire forest fire laws, please contact your local Forest Fire Warden, State Forest Ranger, or the Division of Forests and Lands at 271-2217.

Report of the Road Agent for 1990

To the honorable members of the Board of Selectmen and the citizens of the town of New London.

The year 1990 while a productive year for the department was a difficult, if not impossible year, for your road agent. I must thank the fine and caring people of New London for their thoughts and prayers, cards, telephone calls, and personal visits during my wife's year long, losing battle with cancer. No words can express our appreciation for your love and concern for our family during this trying period.

I must also apologize to some of you for being out of sorts, short of word, and sometimes just plain downright irritable. No excuses, such conduct is uncalled for regardless of the reason. You have my sincerest apologies.

Cemetery Division

The division continued the daily maintenance of our three town cemeteries along with all of the town's commons, parks, and beaches.

Veteran's graves received flags twice during the year. The division has also begun the process of identifying each veteran's grave site that does not have a military stone. Once identified the individual stones are ordered from the Veterans Administration.

Highway Division

The division contracted for the installation of sidewalks on Elkins Road and Main Street. The Pleasant Street sidewalk from Main Street to Gould Road was rebuilt by the Kearsarge Telephone Company following the installation of underground conduits. With the exception of a foot bridge on Elkins Road to some additional paving and minor repairs on Main Street, the sidewalk program authorized by the town is completed. A total 10,328 feet of sidewalks have been rebuilt under the program.

Tree take downs were contracted for 17 streets (Soo-Nipi Road, Soo-Nipi Park Road, Hastings Landing, Page Road, County Road, Tracy Road, Bog Road, Pleasant Street, Pingree Road, Lake Shore Drive, Wilmot Center Road, Sherman Street, Scyth Shop Road, Hillcrest Road, Elkins Road and Bunker Hill Road). Over 400 dead trees were removed and a like number trimmed.

The Great Brook Bridge on Pleasant Street was replaced by contrast. This is the last wooden deck bridge within the town. The new pre-cast, pre-stressing, concrete bridge should give the town many years of good service.

Work on the Pleasant Lake Dam continued during the year with completion of the project scheduled for the spring of 1991. This division constructed a closed drain system on the west end of Burpee Hill Road.

Much time was devoted to street improvements on Wilmot Center Road, Elkins Road, Sherman Street, Hillcrest Drive, Scyth Shop Road, Lake Shore Drive, Pleasant Street, and Farwell Lane. In addition to tree take downs, ditches were cleared, culverts and drains repaired or replaced, rocks removed, and new pavement surfaces applied to all of these streets. A total of 32,595 feet of roadway or 6.17 miles was completed during the year within appropriation. Our 5 year total is now 80,591 feet or 15.26 miles.

The division, for the second year in a row, hauled all of its clean ditch material and other clean fill (rocks, logs, sand, etc.) to the Shepard Pit on Mountain Road. This material is being used to fill the pit and reclaim the land for future reforestation. When completed this large open scar will disappear to become a quiet, green space for the town's future use.

Recycling and Disposal Division

I am very pleased to again be able to report that our community recycling program has grown better than ever, the best is truly better. The town continues to be bombarded with calls and visits from around the country to examine our facilities and programs. The town is currently being considered for a national award for its solid waste programs.

Our recycling programs have been successful because you as citizens have given your whole hearted support. It is your support that has contributed enough materials to make the program self-supporting and return a profit to the town. Not many communities can claim, let alone, prove it. Total recycled products totalled 683.84 tons or 25.02% of all solid waste was recycled saving the town \$64,629.02. Thank you for the opportunity to provide a service that you have expressed so strong a desire for. Our continued leadership roll within the state is a result of your commitment and dedication.

In closing I would like to thank our citizens for their help and continued support during this year of great adversity and stress to my family and myself.

Respectfully Submitted
Frederick W. Welch
Road Agent

NH/VT SOLID WASTE PROJECT ANNUAL REPORT OF ACTIVITIES

The New Hampshire/Vermont Solid Waste Project has performed its functions of providing facilities for the final disposal of municipal solid waste and disposal of ash residue from the waste-to-energy facility successfully this year. We have also continued work in the planning for a completely integrated solid waste management facility which will encompass not only the operations of an ash landfill and waste-to-energy plant, but also a comprehensive recycling, reduction, and reuse program and a means of handling the special waste stream.

The litigation between the Project and the design, engineering and construction firms over their performance of contracted obligations is ongoing. A resolution of this matter is expected in the Spring of 1991.

The Wheelabrator Claremont waste-to-energy facility has continued to perform as designed. The plant was shut down in May and September for scheduled preventative maintenance. These shutdowns were of short duration (2-3 days). In September, a plant modification was performed to the economizer section of the boilers to increase the efficiency of the plant. The waste-to-energy facility was cited on May 17 by the New Hampshire Department of Environmental Services for allowing excess emissions of CO₂ to take place. Corrective action was taken and this situation no longer exists.

Deliveries of trash to the facility have not been as high as predicted this year. There are several reasons for this. Among the reasons are increased participation in residential and commercial recycling, waste diversion, and a slow economy. The resulting shortfall in tonnage due to the above reasons caused Wheelabrator Claremont Co., L.P. to allow the Project to enter the spot rubbish market to seek tonnage to fulfill the contractual obligations. This effort has been reasonably effective and will minimize any penalty that may be incurred for underdelivery.

Planning for the second stage of the ash landfill has commenced. Nobis Engineering Inc. of Concord, New Hampshire, is preparing conceptual plans for this expansion. Once these plans are accepted, they will then proceed to the final design and permitting process. The first stage of the landfill is expected to reach capacity in the Spring of 1992. In order for us to be ready to use the second stage in a timely manner, construction of the second stage should be completed during the construction season of 1991. Monies for this expansion will come from the Capital Reserve Fund.

Carl Hirth, Solid Waste Planner for the Southern Windsor/Windham Counties Solid Waste Management District has administered the Vermont State Planning Grant during 1990. Grant funding was received and output reports were submitted to the Agency of Natural Resources in preparation for submitting a Twenty Year plan for the entire District. This Plan should be completed by Spring 1990.

In early 1990, consultants from R. W. Beck and Dufresne & Henry, began the process of developing various systems to cost out and analyzed options for the

handling of the total waste stream. The consultants developed a Draft Report in early 1990 and a Final Report was presented in September 1990. They concentrated on specific segments of the waste stream including traditional recyclables and special wastes, for example, tires, appliances, and demolition/construction material. They costed out essentially three different types of systems.

Systems I & II were locally organized for collection, processing, and marketing of recyclables. Systems III & IV were locally organized collection with centralized processing and marketing. A facility called a Materials Recovery Facility (MRF) would prepare the recyclables for end markets. System V was an entirely centralized mixed waste processing facility. In addition, in all systems a bypass landfill for non-combustible waste was costed out. The continued operation of the waste-to-energy facility and ash landfill also was assumed. As of November 1990, the District has not made final recommendations on preferred systems.

Three Vermont District Towns, Cavendish, Ludlow, and Weathersfield are managing most parts of the waste stream at their transfer stations and recycling centers. In 1990, Windsor and Springfield are planning expanded recycling collection programs and drop-off sites, and Westminster is going to expand their curbside recycling program. Many District towns however, cannot handle all their waste stream, in particular recyclables and special wastes such as tires. The Vermont District, therefore, is required to plan for the management of the entire waste stream according to the State Legislation Act 78. New Hampshire does not have similar legislation.

Recycling in the entire NH/VT Solid Waste Project area, although mostly handled by the private sector, individual towns, and intertown agreements is a major goal. The Project supports the efforts of member towns who have initiated public sector residential recycling. In New Hampshire, 12 of 16 towns, and in Vermont, 9 of 13 towns, have a recycling collection program. As of December 1990, three New Hampshire towns have instituted mandatory residential programs. One Project town recently chose not to go mandatory, but instituted voluntary recycling collection programs integrated with user fees for trash. Towns market their recyclables in various ways including: local users, local haulers, local processors, and the New Hampshire Resource Recovery Association.

In addition, the Project supports aggressive commercial recycling and reduction. Many private haulers offer separate collection of corrugated cardboard from businesses. The collection of high grade paper, both copying and computer paper, has also expanded in the Project area in 1990. Most of the commercial or institutional recycling is done in conjunction with private haulers and private processors.

In 1990, the Project also co-sponsored two Special Waste Collection Days including tires. In addition, the Project shipped 20 55-gallon drums, approximately 6 tons, of household batteries for appropriate disposal. Annual Household Hazardous Waste Collection Days however, were not held, instead opting for consideration of a permanent collection site. Finally, a New Hampshire State Grant for metals collection containers was applied for and awarded in late 1990. New Hampshire towns thus will be able to expand their collection of metals.

Report of the New London Garden Club

In 1928 Dr. Anna Littlefield founded the New London Garden Club with the following purposes in mind; to encourage and aid in all civic beautification; to protect and perpetuate plants and birds; to promote and encourage a knowledge and love of gardening and horticulture; and to stimulate an interest in all people to work with and for nature.

Our meetings are every second Tuesday of the month and guests are welcome at most meetings. We also have four major projects during the year involving the entire membership.

July 28, 1990 was our 24th Annual Antique Show and Sale held on the Village Green. This is the club's only money making project and is needed to fund other projects, such as; scholarships, Christmas greens, and civic beautification.

Each year the New London Garden Club presents to the University of New Hampshire two scholarships. One to the Department of Plant Science, the other to the Thompson School of Applied Science.

The civic beautification committee is responsible for planting and maintaining fifteen individual areas in the town with a budget of over \$3,000.00. Each year a beautification contest generates an enormous display of color on Main Street with prizes given in the commercial and residential categories. The Garden Club feels it has been a major factor in making New London one of the most beautiful towns in New Hampshire.

In December the Garden Club gathers greens and trimmings and makes 34 wreaths for the public buildings, schools, churches, library, and hospital. We also send Christmas favors to all the patients in extended care.

This year the New London Garden Club helped with a substantial donation to the Tracy Memorial Library Fund, and will continue helping with the landscaping and gardens.

With the hope of making gardening and horticulture information available to all, the club has donated a subscription to "Horticulture" magazine. "The Royal Horticulture Society Digest" and a complete set of the Time-Life Encyclopedia of Gardening, 1989 edition to the Tracy Memorial Library.

There are 125 hard working members in the club. We are a member of the Monadnock District, New England Region, New Hampshire Federation of Garden Clubs, inc., the National Council of State Garden Clubs, The Royal Horticultural Society, and the Arnold Arboretum.

HISTORY AND ARCHIVES COMMITTEE

Many people have asked "Where is the archives"? The New London Archives is located in the "new" section of the town hall directly under the town clerk's office. It is open Wednesday mornings and by appointment other times. The archives is an active, interesting place and not a dark, stuffy dungeon. Do come and take a look around. You will be surprised what you will find!

Where are the records of current organizations and/or businesses of New London? Attics, closets and cellars are not good places for them. In the archives, there is the proper temperature and humidity and also the threat of fire is greatly reduced. Your designated people will have access to the records when needed. Early records may not seem valuable but they are and will be even more so to future generations. Please see that these old records are placed in the archives. Several organizations, the New London Garden Club and the Boys Club, have kept their records in the archives for a number of years.

This year, the archives has received seven volumes of regiment histories of the N.H. Volunteers as well as a Myra B. Lord History of New London (original). Also received are numerous donations of old programs, booklets, newspapers, catalogs, letters, town reports and maps. Among the photos received are 24 of the early ski tow — Northeast Slopes on Bunker Road. Many of you should come in and see yourselves about 1956!

In addition to people coming to do research, two individuals representing two different areas have been to the archives to see how it has been set up. Questions were answered. We welcome this type of inquiry and are proud to show others what we have done.

More transcribing and photographing of gravestones in the Elkins Cemetery were done during the summer.

An all-day photograph workshop and a workshop about publishing (especially for town histories) were attended in Keene. Both were very worthwhile. I also participated in a two-day genealogical conference in Westborough, MA, which was presented by the New England Historic Genealogical Society.

Barbara Stearns is looking for more people to transcribe oral history tapes. Anyone interested please contact either one of us.

The "House" project is ongoing. Progress is slow when only a few people are working on it. If anyone has the interest to research house and other buildings, old foundations or areas where activity in the past took place, we would like you to join us. Please make yourself known!

Respectively submitted,
MARGARET MORELAND
Town Archivist

NEW LONDON RECREATION COMMISSION

YEAR END REPORT

The Recreation Commission oversees the operations and waterfront programs of New London's public beaches: Elkins Beach and Bucklin Beach.

This year the Recreation Commission was aided by Laurie Sanborn as Recreation Director. Laurie's tasks were to manage both beaches and staffs, develop safe waterfront procedures, and train and teach lifeguards/staff. Under her watchful eyes the programs instructed 41 preschool children, 57 beginners, 58 advanced beginners, 37 intermediates, 15 swimmers, 9 advanced swimmers, and 4 lifeguard training students. The program consisted of two four-week sessions.

Beaches were opened for weekends only starting Memorial Day weekend until fully opening in mid-June. Full lifeguard staffing was maintained from June 23rd through August 26th. Unguarded beaches were left open through September.

We gratefully acknowledge outgoing commission members for their years of devoted volunteer service. Special thanks go to Deborah Prescott and Bruce Parsons.

1991 . . . Beaches will be opened, but not guarded, weekends only from Memorial Day until June 22nd. Beaches will be guarded from June 22nd to August 25th. Lessons will be two four-week sessions from June 24th to July 18th and July 30th to August 22nd. Keep your eyes open for further information and program sign-ups in the Kearsarge Shopper later this year. The beaches will not be guarded past August 25th.

1990 Sewer Commission Report

The Sewer Commission started the calendar year of 1990 working with the Sewer Review Committee, the Selectmen, and the residents of Job Seamans and Birch Acres attempting to work out and present to the Town a fair and equitable article for the extension of the sewer lines to these areas. The Article was voted down at Town Meeting. The Commission wishes to thank all the towns people, committee members, and Selectmen who worked cooperatively and responsibly towards formulating this article.

The Sunapee Treatment Plant has started its two-year modernization plan. The equalization gate is almost complete and the remainder of the work is continuing.

Throughout the year miscellaneous sewer lines were repaired. The thrust of our work in 1991 will be centered upon upgrading manholes and improving our measuring capabilities.

Monitoring effluents which is hazardous or not permissible to be discharged into the municipal sewers continues to be a policing job. Our employees are stringently enforcing these rules and regulation so that the Town of Sunapee continues to meet its discharge permit. If the sewer users have questions regarding what is or is not allowed "down the drain" sewer employees can be reached daily by phone or the Commission meets weekly on Wednesdays from 8:30 to 10:00 am. Thank you for your cooperation.

Report of Town of New London Bandstand Committee---1990

This past year saw the second series of concerts at the Mary Haddad Memorial Bandstand on Sargent Common. Apparently into every concert season a little rain must fall, with three out of five presentation having to be relocated to Whipple Hall due to inclement weather. Despite this inconvenience, the Committee feels the summer series continues to be well received with record crowds both in and outdoors.

For the gala Fourth of July weekend, we were most fortunate to obtain the 39th New Hampshire Army National Guard Band, who performed a rousing program to an "SR0" crowd at the Town Hall. A particular highlight of the summer was the "Barbershopping Prgram" presented by the North Country Chordsmen, a group featuring several local residents. It was most gratifying to look at the Common filled with people of all ages enjoying this traditional art form in that peaceful setting.

For those who enjoy traditional community bands, the Westmoreland Town Band offered an evening of music and relaxation such as it might have been seventy-five years ago. The big band sounds of the Bob Cuniff Orchestra prompted several audience members to get up and jitterbug. Rounding out the series, the Claremont (NH) American Band gave a varied concert that set many a toe a-tapin'.

Based on the turnout and the generous response to the voluntary "passing of the hat," the Committee realizes that its efforts are not in vain. Unfortunately, in these economic times, the fees required to bring these groups to the Bandstand continue to escalate. While reaffirming its pledge to remain totally non-tax funded, the Committee is currently looking at alternate means of funding. No endowment exists to pay for this entertainment and available funds are rapidly dwindling. We welcome any and all input on this subject from interested parties.

I must again extend my heartfelt thanks to a most hard working and dedicated committee: Vinita Gay, Anna Green, William and Harriet Kidder, Norman Leger, James Moreland, Mary Teach, and Ruth Sisson. The latter, remaining indispensable as Program Chair, locates, negotiates and is liaison with the many bands and groups that appear. Also the many friends who come as audience and volunteer to assist cannot be overlooked. These concerts are truly a "community activity"!

I am writing this at that very special time of year, when the Bandstand is most beautiful with decorations for the holiday season provided by the New London Area Chamber of Commerce, which feature a large tree donated by a citizen of the Town. I also think back to the lovely landscaping during the spring and summer provided by the New London Garden Club. The Bandstand is becoming a symbol of our Town and the contributions of these groups should not go unheralded.

As a Committee we look forward to another successful summer series in 1991. Bands are already being contracted, dates set and plans made for next summer. Were it not for the response from the community, all this could not happen---and we thank you one and all.

1990 Report of Services Provided in New London

1990 was a year of change and growth for Lake Sunapee Home Health Care. In February, we changed our name to Lake Sunapee Health Care and affiliates, Lake Sunapee Home Care and Hospice and Lake Sunapee Community Health Services. We also merged with the Hospice of the Kearsarge Valley and now provide hospice volunteers as an additional service.

Demand for patient care increased due in part to more requests from physicians, hospitals, insurers, and people in the community. Professional and support staff responded to the growing need by maintaining demanding patient caseloads throughout the year.

During the year we received memorial and general donations which were important and greatly appreciated. These gifts enabled us to provide care to people who would otherwise be unable to afford it.

The following is a summary of visits provided to people in New London in 1990:

Skilled Nursing	1933
Rehabilitation Therapies	464
Home Health Aide	2627
Private Duty Nurse (2 hr visit)	55
Certified Nursing Assistant (2 hr visit)	3553
Companion (2 hr visit)	983
Homemaker and Respite Care	218
Pediatric Nursing	2
Child Health Clinic	44
Parent/Child Program	58
Social Service	10
Hospice Volunteer	178
Bereavement Follow-up	26
Blood Pressure Screening	57
Foot Care	53
Flu Shots	196

Thank you for your continued support of our agency and its services. Your town representatives on the Board of Trustees are Nancy Doolittle and Bryan Jones. Trustees of our other boards who also live in your town are Neil P. Atkins, Sonja Jacobson, and Mary Teach.

Cheryl Blik
President and CEO

New London Cemetery Commission

The three active cemeteries, located in Elkins, West Part, and Old Main Street are supervised by the Commissioners. The care, maintenance, and grave openings are managed by the Town Highway Department, Richard Lee, Superintendent under the direction of Fred Welch, Administrative Assistant.

We have had a slight increase in 1990 relative to interments. We have 22 in Old Main Street Cemetery, 12 in Elkins, and 8 in West Part Cemetery. There were 36 new graves sold in the 3 cemeteries combined and new lots will be lined out in the spring in Elkins and Old Main Street.

The Commission has always tried to be aware of varied interests relative to lot and grave landscaping, decorations, and plantings. In our lenient approach we have found many shrubs, bushes, and plantings to have obscured family memorials and encroached on adjacent lots. Some have been severely trimmed or removed, others will be this year. We suggest that lot owners observe their lots annually and take necessary steps to contain their lots in bounds.

EMERGENCY MANAGEMENT REPORT

The program for updating the emergency lights at the Town Hall continues with another phase completed in 1990.

The Emergency Management Committee has completed it's draft of the Town's Master Emergency Plan. It is currently being reviewed and edited by all Town departments.

As always, your questions, concerns and advice are encouraged.

Respectfully submitted,
Stuart F. Sidmore, Jr.
Director

NEW LONDON WELFARE DEPARTMENT

This is the annual report of the Welfare Department of the Town of New London for the year 1990.

Total expenditures for the year amount to \$4,370. Although the majority of payments were for food and rent, there were significant allocations for medications.

It is significant to note that the case load and depths of need have increased dramatically with the current economic climate. This is reflected in the substantial budget increase for 1991.

Respectfully submitted,
John Woodward, Welfare Officer

REPORT OF

THE NEW LONDON POLICE DEPARTMENT

My first year as your Chief of Police presented many challenges (or "opportunities "), as well as personal growth. An extensive testing and screening process resulted in the hiring of several new officers (one of which was the addition of a sixth officer as approved at last years town meeting). Our officers are well trained, conscientious, and dedicated to their highly responsible duties of serving and protecting the residents of New London. And yes, due to the numerous complaints about speeding (especially on Main Street), the increased blue-light activity will continue!

Sergeant David Seastrand successfully completed exhaustive training in the D.A.R.E. program (Drug and Alcohol Resistance Education), which is receiving tremendous national recognition. David is currently working with the Kearsarge Regional school system - 6th grade two days a week. He is excited about this unique program and would be happy to explain the concept to any interested parents, children or organizations.

In closing I would like to express my sincere appreciation and thanks to the residents, Selectmen, and Administrative Assistant for their cooperation, assistance and support during this past year.

Listed below are the comparison figures for 1989 and 1990. The general population growth and economic times reflect an increase in police activities.

Criminal Activities

	1989	1990
Assaults	4	5
Burglaries	18	16
Criminal Mischief	37	36
Thefts	64	95

PERAMBULATION OF THE TOWN LINE BETWEEN NEW LONDON AND SPRINGFIELD

At the request of the Selectmen of New London and Springfield, the New London Conservation Commission has located and photographed the markers on the line between the two towns with the following results:

MARKER #1

Beginning at the northwest corner of New London the northeast corner of Sunapee on the south side of Springfield at a large yellow birch tree and stone with various markings (some overgrown and worn) 1939, 1946, 1953, 1960, 1974, (1983 and 1988 painted). Evidence on photograph 1 on town records.

MARKER #2

From Marker #1 head 96 degrees — 869 yards plus or minus to a stone in the bottom of the wall on the south side of an old road about 40 feet from the corner. Various markings (some worn) TL 1918, 1925, 1932, 1939, 1946, 1953, 1960, 1974, 1988. Evidence on photograph 2 on town records.

MARKER #3

Follow 96 degree course, 1,060 yards plus or minus to a stone on a ledge of top of hill. The stone is about 8 feet south of a wall and has various markings (some worn) TL 1904, 1911, 1925, 1932, 1940, 1953, 1960, 1974, 1990. Evidence on photograph 3 on town records.

MARKER #4

Follow 96 degree course 960 yards plus or minus to stone post beside state road marked TL NL & S 1904, 1911, 1932, 1939, 1946, 1953, 1960, 1974, 1988. Evidence on photograph 4 on town records.

MARKER #5

Course 96 degrees across cove to store post on Colby Point marked TL NL & S 53, 60, 74, 88. Evidence on photograph 5 on town records.

MARKER #6

Course 96 degrees to concrete monument on the shore of Little Sunapee off Golf Course marked TL NL & S 1953, 1960, 1974, 1988. Evidence on photograph 6 on town records.

MARKER #7

Then course 32 degrees about 70 yards plus or minus to a stone post on the north side of highway marked TL NL & S 1925, 1932, 1939, 1940, 1953, 1960, 1974, and 1988. Evidence on photograph 7 on town records.

MARKER #8

Continue course 32 degrees plus or minus 401 yards to a stone post on north side of the road from New London to Twin Lake Village marked TL NL & S 1925, 1932, 1939, 1946, 1953, 1960, 1974, 1988. Evidence on photograph 8 on town records.

MARKER #9

Continue course 32 degrees plus or minus 1,133 yards to a stone on south end of a wall marked TL 1918, 1925, 1932, 1939, 1946, 1953, 1960, 1974. (Not found yet).

MARKER #10

Continue course plus or minus 429 yards to a stone on an old wall marked TL 1918, 1925, 1932, 1939, 1946, 1953, 1960, 1974, 1988. Evidence on photograph 10 on town records.

MARKER #11

Continue course plus or minus 1760 yards to a stake and a stone at the corner of NE New London, and NW Wilmot on the southeast Springfield line. All markings are worn and grown over to a great extent. Evidence on photograph 11 on town records.

In witness whereof we have hereunto set our hands on the dates indicated in the year 1990.

We approve of this perambulation.

REPORT OF TREE WARDEN

For the fourth consecutive year, the Town of New London received the TREE CITY, USA award in recognition of the tree maintenance and planting program. Two large Norway Maples were planted on Main Street near the exit of the Middle School to commemorate the occasion.

The town spent \$4,156.27 on planting new trees including a \$400 gift from family and friends of Virginia Stone. A Norway Maple was planted on the Sargent Common in her memory.

The town also spent \$4,215 pruning, fertilizing and cabling the majority of existing trees on Main Street from Pleasant Street west to Pressy Court. Unfortunately, many Sugar Maples, as well as, the Copper Beech in front of Ausbon Sargent's home (a 1931 Wedding Anniversary gift from his wife) are all dead or dying because of irrecoverable salt damage.

Respectfully submitted
Robert Fraley, Tree Warden.

TRACY MEMORIAL LIBRARY 1990 ANNUAL REPORT

The past year has been in many ways the busiest in the history of Tracy Memorial Library. Circulation of library materials increased from 57,066 in 1989 to 65,772 in 1990. The Library registered 1,675 new borrowers, bringing the total registration to a new high of 3,838. This number includes many summer residents, non-resident students from the Kearsarge Regional School District, and adult borrowers who pay a yearly non-resident fee. New acquisitions numbered 1,751 for books and 229 for non-print items such as audio-books, videocassettes and compact discs.

With a large and impressive vote of confidence at the March Town Meeting, funds were allotted for the renovation and addition to the Library, and at a groundbreaking ceremony on April 19 our hopes and dreams became a reality. In a spirit of remarkable cooperation Engelberth Construction, Inc., Ingram/Wallace Architects, and the staff and Board of Trustees of Tracy Library worked together to finish Phase I, the new addition, by the end of 1990.

The Library staff, working under conditions that would try the patience of a saint, accomplished a miracle: they were able to provide the usual services to the Town while construction was proceeding. These difficult conditions were no less onerous for our host of loyal volunteers, all of whom remained cheerful and calm as they continued to deliver their services to the public.

Phase II, the renovation of the old building, should be completed in early 1991. We are certain that Tracy Memorial Library will be one of the most attractive and efficient libraries in New England — a library of which the townspeople can be justly proud.

New London Hospital Association Uncompensated Care

■ Uncompensated Care
Charity care, bad debt, and care uncompensated by Government.

ANNUAL REPORT OF THE

NEW LONDON HOSPITAL AUXILIARY

The Auxiliary of New London Hospital holds as it's primary mission the rendering of volunteer service and financial support to New London Hospital. Although 1990 has been a challenging period for volunteer organizations, the Auxiliary is pleased to report that during this time we have successfully increased our membership, our volunteer services and our financial assistance in support of the New London Hospital community.

The Auxiliary's 430 members put their time and talents to work in a variety of ways. In the area of in-hospital service, over 100 men and women gave 9,000 hours of assistance in various departments of the hospital and at the William P. Clough Extended Care Center, ten volunteers were honored by the Auxiliary this year for in-hospital service in excess of 100 hours each. Director of Volunteer Services, Adele Morris, has done an outstanding job of co-ordinating programs and projects for the hospital's volunteer department. Among her many accomplishments this year were the following:

- i. the production of videotape on specific volunteer jobs within the hospital.
- ii. the restructuring of a summer volunteer program for 23 twelve to seventeen year olds.
- iii. the publication of an updated, instructional "Volunteer Handbook".

Each of these projects involved the expertise and co-operation of other individuals.

The Auxiliary gratefully acknowledges the Kearsarge Valley Magazine - Hi Tech Video team for the opportunity it provided to film the volunteers in action; Nancy Ulf for her superb directorship of the Volunteer Program, and the volunteer office staff for their commitment to the Volunteer Handbook effort.

Auxiliary volunteers also work within the community , assisting with the Red Cross Bloodmobile Drives and the organization and delivery of Meals on Wheels five days a week, all year long. Many of these individuals have participated in these programs since their inception in our community.

The Auxiliary depends upon volunteer help in the area of fundraising as well. For the 1989/1990 year, \$7,550 was presented to six scholarship recipients as a result of the Scholarship Tennis Tournament in June; the Easy Aces Bridge tournament and the Barn Players Pillow rental program. The beneficiaries of these Auxiliary Scholarships are two, third-year nursing students currently employed at New London Hospital; a hospital employee pursuing a Masters Degree in hospital administration; two New London Hospital A B C Daycare students, and a Sunapee High School graduate, currently enrolled in the University of New Hampshire's School of Nursing.

In addition to scholarship gifts, funds totaling \$25,714 were raised from the Auxiliary's work table sales at Hospital Day and from our Spring and Fall rummage sales. With these funds, completion of the E.C.C. sunroom became a reality. In 1990 the Auxiliary provided funds for the hospital to purchase wall clocks for rooms in the medical surgical wing, three new TV's for the Birthing Center, and monies to co-sponsor the A B C Daycare music program were also donated.

Educational programs sponsored by the New London Hospital Auxiliary are open to the public. These programs take place at the first Baptist Church, on the first Wednesday of each month, October through May, at 12:30 pm.

In conclusion, the Board of Directors of the Auxiliary wishes to express its sincere appreciation to the community at large for its generosity and assistance with auxiliary projects throughout the year. The supportive teamwork of this community makes a world of difference to neighbors in need.

The 1990 Auxiliary Board of Directors are:

Executive Committee

Elynor Taylor, President	Joan Ward, Rec. Sec.
Joan Clarke, 1st VP	Marylee Atkins, Corres.Sec.
Pam Low, 2nd VP	Andi Steel, Trea.
Beth Mathewson, Assis. Treas.	Francis Hoke, Past Pres.

Directors

Sheridan Danforth	Adele Morris
Janice Eberly	Mary Teach
Carol Frucht	Hope Howard
Betty Horne	

Respectfully submitted,
Elynor Taylor, President

**NEW LONDON-SPRINGFIELD
WATER SYSTEM PRECINCT**

**ANNUAL REPORT
for the year ending
31 DECEMBER 1990**

Founded 1925

Providing water service to customers in the
Towns of New London and Springfield

**NEW LONDON-SPRINGFIELD
WATER SYSTEM PRECINCT**

PRECINCT WARRANT

Towns of New London and Springfield, N.H.

To the inhabitants of the New London-Springfield Water System Precinct in the counties of Merrimack and Sullivan, respectively, qualified to vote in Precinct affairs:

You are hereby notified to meet at the Town Hall in New London, New Hampshire, on Tuesday, March 19, 1991, at 3:00 p.m. to act on the following subjects:

(Note: By law the meeting must open before voting starts. Therefore, the meeting and polls will open at 3:00 p.m. At 3:15 p.m. the meeting will recess, but the polls will remain open until 8:00 p.m. The meeting will reconvene at 7:00 p.m. to act on Articles 1 through 8.)

ARTICLE 1: To choose all necessary officers for the coming year.

ARTICLE 2: To hear the reports of officers, committees and auditors and pass any vote relating thereto.

ARTICLE 3: To set the salaries of all officers for the coming year.

ARTICLE 4: To see if the Precinct will vote to raise and appropriate the following sums to defray precinct charges for the ensuing year:

	Actual 1990	Budget 1991

REPORT TO THE VOTERS — 1990

The annual meeting of the New London-Springfield Water System Precinct in March of 1990 saw the election of John Clough as Water Commissioner. After having been sworn into office Clough was unable to fulfill his term because of conflicts, and Commissioners Woodger and Jacques appointed James Cricenti to fill the position for one year.

The major expenditure items approved by the voters at the last Annual Precinct Meeting was \$170,000 for the completion of the Knights Hill grid. The Commissioners were able to obtain the services of Clarke Co. Construction to dig the trench, set the pipe and backfill the trench. The work was completed in a timely and safe manner, with a sum of money still retained to be able to put down an asphalt overlay on Knights Hill Road in the spring of 1991.

Due to the economic recession that the building industry has been experiencing for the last few months, applications for new services have been very minimal. The Commissioners, therefore, were able to devote much time to reviewing the Rules, Regulations and Rates of the Precinct, and make revisions, additions, and deletions, where necessary.

Finally, in regards to compliance with the Safe Drinking Water Act, the State of New Hampshire has revised their rules and regulations concerning the standards and limitations of drinking water in public systems to coincide with the guidelines set by the Federal government. With these rules in place the State of New Hampshire has mandated that all public water systems in the State, that come under these guidelines, shall comply by June 1993. The use of either a waiver for avoidance or an exemption, are **not** viable options. The New London-Springfield Water System Precinct must move ahead and formulate plans for complying and executing them in a timely fashion.

Commissioners
New London-Springfield Water System Precinct
New London, NH 03257

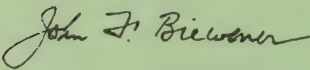

Gentlemen:

I have reviewed the accompanying balance sheet of the New London-Springfield Water System Precinct as of December 31, 1990, and the related statements of revenue and expenditures and cash flows for the year then ended, in accordance with standards established by the American Institute of Certified Public Accountants. All information in these financial statements is the representation of the management of the New London-Springfield Water System Precinct.

A review consists principally of inquiries of Precinct personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I do not express such an opinion.

Based on my review, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with generally accepted accounting principles.

The financial statements for the year ended December 31, 1989, were audited by me and I expressed an unqualified opinion on them in my report dated January 26, 1990, but I have not performed any auditing procedures since that date.

John F. Biewener, CPA

January 21, 1991

**New London-Springfield Water System Precinct
BALANCE SHEET AT DECEMBER 31, 1990 AND 1989**

New London-Springfield Water System Precinct

NOTES TO FINANCIAL STATEMENTS

(For the years ended December 31, 1990 and 1989)

Note 1 - Summary of Significant Accounting Policies

The income accounts of the New London-Springfield Water System Precinct are maintained on a cash basis, recording income as it is collected. The income accounts are converted to an accrual basis at year-end.

Expense accounts record items only when cash is disbursed. The expense accounts are converted to an accrual basis at year-end. The inventory of supplies is priced at cost. Based on a physical inventory taken once a year at year-end, the increase or decrease in the inventory value is charged or credited to supplies expense. The policy of the Precinct is to maintain a uniform level of supplies inventory for Precinct use in its operations. In 1986, the Precinct required customers to install protective equipment to prevent possible contamination of the water system. As a convenience to these customers, the Precinct purchases supplies of protective equipment for re-sale to customers, to assure the most expeditious installation.

Facilities and equipment are stated at undepreciated cost. Gifts and contributions of water facilities are recorded at fair market value at the time received. Assets disposed of or abandoned are written off at cost against the appropriate asset account, and charged to the Plant and Equipment Fund balance.

Note 2 - Precinct Tax

The Precinct Tax has no restrictions. However, income from this tax is used primarily to pay principal and interest on outstanding debt, to pay for facilities and equipment, and to increase capital reserve funds. The tax is reported as Other Income to avoid distortion of gain or loss from water operations.

See accountant's report.
